

Trul3gacy

Established in 2011, the group set off to break the mold and revolutionize the genres of "Hip Hop and Soul" with their harmonic sound, witty lyrics and flow. Unlike most groups, the group wasn't put together by a label, but by their love and appreciation for music with Lyrical content. Many have compared the sound to the liking of the best selling R&B group, "Boyz II Men". Tru L3gacy's fresh generic sound is taking the industry by storm as they travel all over the U.S. creating a huge fan base for themselves.
